THE FIVE WHY

"फाइव व्हाइज" एक समस्या-समाधान तकनीक है जिसका उपयोग किसी समस्या के मूल कारण को जानने के लिए "क्यों?" बार-बार पूछकर किया जाता है, जब तक कि मौलिक समस्या का पता न चल जाए। यह एक सरल लेकिन प्रभावी उपकरण है, जिसे संगठन लगातार सुधार, समस्या निवारण और समस्या समाधान के लिए सामान्यतः उपयोग करते हैं।

फाइव व्हाइज कैसे काम करता है:

समस्या पहचानेंः उस समस्या को स्पष्ट रूप से परिभाषित करें जिसे आप विश्लेषण करना चाहते हैं। उदाहरणः "एक परियोजना समय सीमा से चूक गई"। "पहला "क्यों?" पूछेंः यह निर्धारित करें कि समस्या क्यों हुई। यह उत्तर अक्सर एक सतही कारण की ओर इशारा करता है।

उदाहरणः "समय सीमा क्यों चूकी?" → "क्योंकि टीम डिज़ाइन चरण को समय पर पूरा नहीं कर पाई।

"दूसरा "क्यों? "पूछें: गहराई से जाँच करें कारण की पहचान पहले चरण में की गई।

"तीसरा "क्यों?" पूछें: दूसरे चरण से कारण की और जांच करें।

उदाहरण-"डिजाइन की आवश्यकताएँ अस्पष्ट क्यों थीं?" "क्योंकि ग्राहक की अपेक्षाओं को स्पष्ट रूप से व्यक्त नहीं किया गया था।"

चौथा "क्यों?" पूछें: गहराई से खुदाई जारी रखें।

उदाहरणः "ग्राहक की अपेक्षाएँ स्पष्ट रूप से क्यों नहीं संप्रेषित की गईं?" → "क्योंकि टीम ने आवश्यकताएँ स्पष्ट करने के लिए बैठक नहीं की।"

पाँचवाँ "क्यों?" पूछें: पाँचवां "क्यों?" असल जड़ कारण का खुलासा करना चाहिए । **उदाहरण:** "टीम ने आवश्यकताएँ स्पष्ट करने के लिए बैठक क्यों नहीं की?" → "क्योंकि आवश्यकताओं को इकट्ठा करने के लिए कोई परिभाषित प्रक्रिया नहीं थी।"

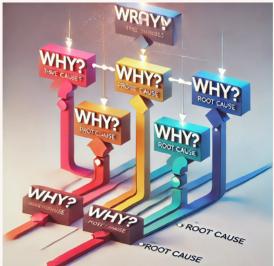

फाइव व्हाइज के लाभः

मूल कारण की पहचानः यह केवल लक्षणों के बजाय वास्तविक underlying समस्या को उजागर करने में मदद करता है।

सादगीः इसके लिए जटिल उपकरणों या प्रशिक्षण की आवश्यकता नहीं होती।

सुधरे हुए प्रक्रियाएँः यह प्रक्रियाओं, नीतियों या प्रथाओं में अंतराल की पहचान करता है।

पुनरावृत्ति की रोकथामः मूल कारण को संबोधित करके, भविष्य में समान समस्याओं को रोका जा सकता है।

TALK OF MANAGEMENT TOOLS

December 2024

This section presents a brief description of the various activities conducted in the library.

THE FIVE WHY

The Five Whys is a problem-solving technique used to determine the root cause of an issue by repeatedly asking "Why?" until the fundamental problem is uncovered. It's a simple but effective tool commonly used in organizations for continuous improvement, troubleshooting, and problem resolution.

How the Five Whys Work:

Identify the Problem: Clearly define the issue you want to analyze. For example, "A project missed its deadline."

Ask the First "Why?" Determine why the issue occurred. This answer often points to a superficial cause.

Example: "Why was the deadline missed?"

→ "Because the team couldn't complete the design phase on time."

Ask the Second "Why?" Dig deeper into the cause identified in the first step.

Ask the Third "Why?" Probe further into the cause from step two.

Example: "Why were the design requirements unclear?" \rightarrow "Because the client's expectations weren't communicated clearly."

Ask the Fourth "Why?" Continue drilling down.

Example: "Why weren't the client's expectations communicated clearly?" → "Because the team didn't hold a requirements clarification meeting."

Ask the Fifth "Why?" The fifth "Why" should reveal the root cause.

Example: "Why didn't the team hold a requirements clarification meeting?" → "Because there wasn't a defined process for requirements gathering."

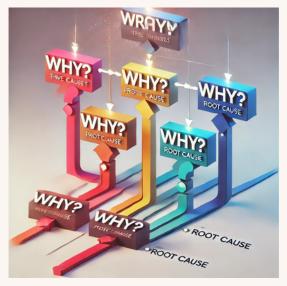

Benefits of the Five Whys:

Root Cause Identification: Helps uncover the underlying issue, not just its symptoms.

Simplicity: Does not require complex tools or training.

Improved Processes: Identifies gaps in processes, policies, or practices.

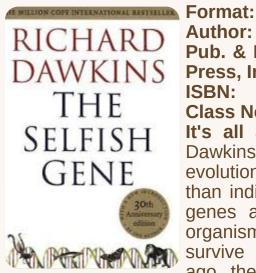

Prevention of Recurrence: By addressing the root cause, similar issues can be prevented in the future.

Press, Inc: c2013, 359p; 20 cm. ISBN: 978-0-19-569066-8

Class No: 591.5

It's all about: The Selfish Gene by Richard Dawkins is a highly influential book that explains evolution from the perspective of genes rather than individuals or species. Dawkins argues that genes are the main drivers of evolution, and organisms are just "vehicles" that help genes survive and replicate. First published 52 years ago, the book helped spread the ideas of Neo-Darwinism and sparked new research in biology.

Book: Discover The Diamond In You

Most of us live our lives without discovering that we have a diamond within us. At times, even when we realize there is a diamond within us, we never bother to nurture it properly, or rather, we fail to find the right teachers who can shape its edges and bring out the light inside. Sometimes, we discover the diamond and even shape it, but fail to polish it properly; for it is only when a well-cut diamond is polished that it begins to dazzle! Some of us may even be diamonds that have lost their sheen a little and simply require more polishing. But it is my firm belief that we are all diamonds in this world! To believe you are a diamond, you must first believe that you are rare.

The author then explains the 9P's of Success which are based on the above qualities. The various examples that he gives up are simply superb and extremely motivating. The 9P's of finding diamond in you.

PASSION- Nothing in life defines us more than how passionately we go about doing what we believe in.

POSITIVE ENERGY- The higher the positive energy, the more our chances of achieving.

PERFORMANCE- You need to perform and lead by example for others to follow.

PERSEVERANCE- Be prepared to fail but have the perseverance to try again and again and with exactly the same amount of sincerity and if you do so, you sure are a very well cut diamond.

PERSONALITY- The colour of a human diamond is determined by an individual's personality.

PEOPLE- If you want to multiply your success score, you need to believe in people.

PERSPECTIVE- Perspective helps determine the clarity of the human diamond. If you know where you are travelling to and what you want in life, everything else becomes clear and your journey reaps the maximum rewards.

PRINCIPLES- The clarity of the human diamond depends upon our principles in life. Our principles help us become spotless clear diamonds.

PATRIOTISM- Patriotism is the final P that determines the clarity of the human diamond. The love for your country and for human beings anywhere in the world is what makes the human diamond perfect.

This book is written by taking examples off all great achievers in life. Its worth reading this book.

BOOK: The Monk Who Sold His Ferrari

The Monk Who Sold His Ferrari is a story that teaches us about inner peace and living a purposeful life. It follows the journey of Julian Mantle, a powerful lawyer who undergoes a profound spiritual transformation. The book offers timeless wisdom and practical advice for achieving fulfillment in life.

Julian was a successful yet materialistic attorney whose life took a downward turn after suffering a heart attack. This event forced him to pause and reflect on what truly mattered to him. Leaving his demanding lifestyle behind, he embarks on a quest for meaning and happiness. His journey leads him to the ancient Himalayan monastery of Sivana, where he becomes deeply inspired by a group of enlightened sages.

With the guidance of these wise monks, Julian learns the Seven Virtues of Enlightened Living:

• **Master Your Mind**: A mind is a powerful tool that can be good or bad. Julian is introduced to power techniques that help him control his thoughts and

feelings, thus enabling him to become a positively tuned character.

- Find Your Purpose: If there is any secret to lasting happiness and success, it is the discovery of one's true purpose in life. Through his quest, Julian finds a way to determine his passions in life in consonance with his values.
- **Practices Self-Discipline:** Self-discipline is the key to executing any activity. Julian learns the importance of setting clear intentions, scaling daily rituals, and committing to action that he kept doing.
- Living by Simplicity: Material possession and distractions on our pursuit of happiness do sap undue energy. Undoubtedly Julian learns that a minimalist lifestyle focusing solely on what matters to him is aptly teachable.
- Live to Give: Nothing else gives as much joy and fulfillment as giving to others. Julian learned the meaning of selfless service and that life is, in many ways, about sharing time, talents, and treasures.
- **Live in The Present:** Yesterday is gone. Tomorrow is not guaranteed. Julian learned to live in the present by enjoying every experience, no matter how mundane or routine.
- **Relationships should be cherished:** A strong relationship is fundamentally important to living life to the fullest. Julian learns to nurture his relationships with his loved ones and cultivate really powerful connections with in-depth interactions, thanks to his guidance.

Julian returns from his life-changing experience and shares his newfound insights with his former coworker, John. Through their conversations, he inspires John to embark on his own journey of self-discovery and growth.

The Monk Who Sold His Ferrari serves as a powerful reminder of a simple yet profound truth: happiness comes from within. By training the mind, following one's true calling, and living with awareness, anyone can cultivate a life filled with joy, peace, and abundance.
